Smart IT racks and enclosures
built for quick, hassle-free deployment

IT Infrastructure and Automation Enclosures

NFM-WMS Series - Wall Mount Enclosures With Screw Cover

Designed for secure and compact installations, WMS enclosures provide high protection and durability for industrial applications.

Key Specifications

- Material: Sheet steel (2.0 mm) with foamed-in PU seal
- Finish: Dipcoat primed, powder coated (RAL 7035)
- Protection: IP66
- Fastening: Quick release fastener with plastic bushes
- Warranty: 18 months

Available Sizes

Part Code	Size (W x H x D)	Part Code	Size (W x H x D)
NFM - WMS - 151510	150 x 150 x 100	NFM - WMS - 203012	200 x 300 x 120

NFM-WMH Series - Wall Mount Enclosures With Hinge Door

Engineered for ease of access and durability, WMH enclosures offer reliable performance with high-quality hinged construction.

Key Specifications

- Material: Sheet steel (2.0 mm) with foamed-in PU seal
- Finish: Dipcoat primed, powder coated (RAL 7035)
- Protection: IP66
- Hinges: High-quality durable hinges
- Warranty: 18 months

Applications: Industrial Automation | Electrical Distribution | Control Systems | IT & Communications

Built for protection. Designed for ease. Ready for real-world applications.

Large Enclosures Designed With Our Signature Butterfly Profile

The chassis profile is the foundation of every enclosure. Recognizing its importance, we have invested significantly in R&D to develop our proprietary "Butterfly Profile."

This robust, modular design offers versatile baying capabilities and a modern structure that optimizes both panel size and overall costs. Because the frame is fully detachable, it can be assembled or dismantled rapidly, significantly reducing transportation expenses and virtually eliminating the risk of transit damage

Key Advantages

- Reduced Transport Damage
- Lower Transport Costs
- Time-Saving Integration
- Modular, Easy Assembly
- Side-by-Side Baying

Enclosure Specification

- Material: Sheet Steel
- Frame: Butterfly profile (CED coated in black colour)
- Thickness: Door 2 mm, Side panel, top / bottom cover, back cover - 1.6mm, Mounting plate - 3 mm, Gland Plate - 1.6 mm
- Finish: RAL 7035 powder coated for flat parts
- Approvals: Under process
- Warranty: 18 months

Mounting Plate With Precise Marking

Key Specification

- Material: Sheet Steel
- Finish: Galvanised
- Thickness: 3 mm
- Marking: Grid lines at 100 mm horizontally

Key Advantages

- Saves Installation time
- Prevents misalignment errors
- Provides professional factory ready mounting surface

Applications: Industrial Automation | Electrical Distribution | Control Systems | IT & Communications

Built for protection. Designed for ease. Ready for real-world applications.

NFM-IT-INFRA | IT Infrastructure

NFM-NR SERIES

IT network racks designed for fundamental setups, available in sizes from 4U to 15U

Key Advantages

- Material: Sheet steel (1.5 mm)
- Finish: Dipcoat primed, powder coated (RAL 9005 – Jet Black)
- Optional Finish: RAL 7035 (Siemens Grey)
- Glass front door
- High-quality durable hinges
- Warranty: 18 months
- Mounting arrangement at back side

Available Variants

4U | 6U | 9U | 12U | 15U

NFM-CORE SERIES

Leveraging the Butterfly Profile design, we provide advanced server racks for IT applications, ensuring durability, modularity, and ease of integration. For basic requirements, we also offer entry-level IT racks without the profile, delivering cost-effective solutions for simpler applications.

Key Specification

- Material: Sheet steel (1.5 mm) with foamed in PU seal
- Finish: Dipcoat primed, Powder coated – RAL 9005 shade
- Perforated back door and glass front door
- Hinges: High quality durable hinges
- Ready for industry 4.0 modifications
- Warranty: 18 months

Key Benefits

- Modular design for flexible configurations
- Easy integration with existing systems
- Strong structural durability
- Optimized airflow and accessibility
- Suitable for evolving IT infrastructure needs

Available Variants

28U | 32U | 36U | 42U

Every detail is designed to simplify installation, enhance accessibility, and ensure dependable operation.
